## DOLLAR WHEAT

A Reality in Christian County Once More.

Two Crops Sold at That Price Saturday--Down Now to .95 Cents.

July wheat struck the dollar mark Saturday for the first time, when a representative of the Duplop Mills paid E. D. Jones and Charles Boyd \$1 per bushel for their crops of about 6,000 bushels delivered at Rich. The price opened ten days ago at 80 cents. Some sold at that price, some at 85 and a good many at 95 cents. J. D. Shepherd, D. E. Fowler and Buckner Leavell sold at 95 Saturday. The price was at 95 yesterday, but sales are slow, as the dollar price has spoiled the farmers. About ten per cent of the crop has been threshed and it is very fine, weighing 59 to 62 pounds. About 25 per cent of the crop has been sold, some in advance of threshing. The crop of the county will probably exceed 800,000 bushels. Duplop's representative was seen yesterday and said the high price for the two crops Saturday, was due to a complication about the sacks it was in and that he did not want any more at that price.

## DEATH OF MRS. GOOCH.

Body Was Shipped to Adams, Tenn., for Interment.

Mrs. Martha Jane Gooch died Sunday afternoon at the residence of her son-in-law, Mr. N. A. Barnett, on East Ninth street, of illness incident to old age. She was 80 years old, a consistent member of the Methodist church, and a woman much esteemed by a large circle of friends. Funeral services were held by Rev. E. L. Southgate at 4 o'clock yesterday afternoon and the body was shipped to Adams, Tenn., where the interment will take place to day.

Deceased was a native of Tennessee, but she had made her home in this city with her daughter for several years.

## ON HIS FEET AGAIN.

Sully, the Dethroned Cotton King, Will Soon Begin East-ness Again.

New York, July 8.—That Daniel J. Sully will soon be in business again is a statement contained to day in an interview with Mr. Sully's counsel, who said: "All that is necessary now to do is to carry out the forms prescribed by the bankruptcy law, which will be immediately done. A sufficient number in majority and amount of creditors having voted in favor of the proposition upon the terms agreed upon, it follows that the matter will go through."

## Why We Bought.

We were induced by the trade to bring on a heavier, better fruit jar than has been handled here in the past. Our customers tell us the jars they have been getting were so light as to be too easily broken, in carrying out and canning fruit. We have a car of the heaviest, best Mason's Fruit Jars made, and the trade is so pleased they are selling rapidly. Prices low and satisfaction guaranteed.

## PARKER AND DAVIS WIN.

The New York Jurist Chosen on First Ballot and Nomination Made Unanimous.

ALTON BROOKS PARKER.

Platform Contains No Money Plank This Time.

A WINNING TICKET.

Senator Henry G. Davis Chosen for Vice-President

PLATFORM IN FULL.

Report of Resolution Committee Unanimous.

Flurry Caused in the Convention Saturday Night By a Telegram From Judge Parker, But all Ended Harmoniously.

St. Louis, July 10.—At 1:20 this morning, the balloting for a candidate for Vice President was concluded in the Democratic Convention and Ex-Senator Henry G. Davis, of West Virginia, was declared the nominee. There was only one ballot. The final result of the ballot was, unofficially, Williams, 165; Turner, 100; Davis, 65; Harris, 58. Iowa did not vote.

The nomination of Davis was made unanimous, and the convention then adjourned.

## Parker Sends a Telegram.

When the Democratic National Convention reassembled Saturday afternoon the startling announcement was whispered around in different circles that a sensation was to be sprung upon the convention at the eleventh hour.

It developed that Judge Parker had sent the following telegram:

## Declares Himself For Gold.

"Hon. W. F. Sheehan, Hotel Jefferson, St. Louis: I regard the gold standard as firmly and irrevocably established and shall act accordingly if the action of the convention of today shall be ratified by the people. As the platform is silent on the subject, my views should be made known to the convention and if it is proved to be unsatisfactory to the majority, I request you to decline the nomination for me at once, so that another may be nominated before adjournment."

"A. B. PARKER."

A hasty adjournment took place until after supper, when the convention met and sent a formal reply to Judge Parker, saying the money question was not to be an issue and his views on questions outside the platform were not inconsistent therewith. A discussion of the

matter was engaged in, the leaders having evidently agreed in conference. Mr. Bryan arose from a sick bed and after proposing amendments to the answer to be sent, opposed the reply upon the ground that it would be an endorsement of the gold standard. Williams presented the other side.

## Williams Proposes Reply.

"Mr. Chairman, I think you will bear me out in what I say. This is the first time in the history of the United States that a man already nominated for the greatest office on the surface of this earth has been so super-sensitive about a matter of personal reticence and honor as to send a telegram to a friend asking him to decline the nomination for him, if, as he seems to have been informed, there is something in the platform which is not in accord with his own opinion."

"My friends, we purposely made this platform silent on the question of the money standard."

We made it silent because we all agreed that it was not an issue in this convention (applause) and we all agreed furthermore that nothing should be placed in the platform which was not a campaign issue and the consequence was that in the Resolution Committee motions were made to table and those motions were carried every resolution on both sides which stood to bring about as an issue in this campaign the question of the money standard."

## All Knew It Before.

"Now, my friends, Judge Parker expresses his opinion for fear somebody might think you did not know it. There is not in all this vast assemblage one single, solitary man who did not already know that Judge Parker was a gold standard

man. I have been one of the consistent, persistent and, perhaps, radical free silver men in the United States, and I knew that he was a gold standard man, and he never made any attempt to conceal it from anybody. He had supported our candidates and had said that, although he did not agree with us upon this plank, he was still a Democrat. (Applause.)

"Now, my friends, we had also, as far as the question of the monetary standard was concerned in a campaign which was so fraught against imperialism, against executive usurpation, we purposely made a platform so far as the monetary standard is concerned upon which Bryan could have stood or upon which Grover Cleveland could have stood, or anybody else who was with us in the pending live campaign issues could have stood. (Applause.)"

Mr. Williams then offered the following answer to Mr. Parker's telegram: "The platform adopted by this convention is silent on the question of monetary standard because it is not regarded by us as a possible issue in this campaign and only campaign issues were mentioned in the platform. Therefore there is nothing in the views expressed by you in the telegram just received which would preclude a man entertaining them from accepting a nomination on said platform." (Applause.)

## Reading the Message.

Taking up the reply of the convention to Judge Parker's telegram, Mr. Williams read the first sentence. "The platform adopted by the convention is silent on the question of the monetary standard."

"Does anyone deny, even Mr.

## POINTS ABOUT STUTTERING.

Seldom Does a Child or Adult Stutter Are More Common Than This.

Stuttering is defined in medical books as a spasmodic action of the muscles concerned in articulation, occasioned by enormous nervous control, leading to a sudden check in the utterance of words or to a rapid repetition of the literal sound in connection with which the difficulty arises.

This, says Youth's Companion, is an example of a waste of good words in defining what we already know without definition. What the stutterer wants to know is not what he is doing, but how he can stop doing it.

Stuttering almost always dates from childhood, being often first noticed after some serious illness, such as scarlet fever or measles. It seldom begins in adult life, although a grown man who used to stutter as a child and has recovered, may suffer a relapse when run down in health or worried in business. It is a curious fact that girls stutter much more rarely than boys, but why this is so has never been satisfactorily explained. Those who have attempted to account for it usually drag in some inglorious allusion to the flexibility of a woman's tongue.

What causes a boy to stutter is a mystery. The sufferer is usually a nervous disposition, and is often diffident and self-conscious—but it is hard to say whether the self-consciousness is a cause or a result of the defect. Unconscious limitation of a stuttering playmate may be a cause. Sometimes adenoid growths in the pharynx or a malformation of the roof of the mouth are contributory causes, and correction of the defect may result in a cure. Such an instance was recently brought to notice by a correspondent, a stuttering boy who had lost the habit after a straightening of the teeth had widened the cavity of the mouth. The usual treatment consists in properly conducted reading, speaking and breathing exercises, which must be modified to suit the individual case. Every stuttering school boy has been told that the greatest error of those cured himself by speaking with a mouth full of pebbles. If Demosthenes succeeded in that way, his success was due to his painstaking rather than to the pebbles.

**Black Skin Protects Against Sun.**

On the bare arm paint a broad line in Indian ink and expose the arm to the strong sunshine. A slight inflammation sets in on the unprotected skin, but not under the black paint, which excludes the light rays that, of course, not the heat rays. Some days after the skin is darker (sunburned), except where the Indian ink was painted, where is a white line in the skin. Exposing the arm again, the inflammation sets in only in the white line. The brown pigment caused by the sun (sunburned) at the first exposure protects the skin against the chemical rays. Therefore, are negroes black, and travelers of white skin may protect themselves in the tropics from the sun by black or red paint.—London News.

**Conditions on the Isthmus.**

On the entire isthmus of Panama there is not a rod of sewer and only one bathroom. Even in the costly residence buildings erected by the French engineers there are no modern conveniences. The only water supplied for domestic purposes is brought in barrels from distant sources and it breeds mosquitoes by the million. In order to place sewerage in Colon it will be necessary to raise the city four feet. The entire canal zone will have to be provided with an extensive system of drainage, and to furnish an adequate supply of pure water will involve an outlay of millions of dollars.—Chicago Daily News.

**Leisure-Loving Spaniards.**

The children of Spanish residents in Mexico are less energetic than their parents, and the change becomes more noticeable with every generation.

## A WOMAN'S BACK.

Aches and Pains Will Disappear If the Advice of This Hopkinsville Citizen is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidneys' fault. Backache is really kidney ache. That's why Doan's Kidney Pills cure it.

Many Hopkinsville women know this.

Read what one has to say about it:

Miss L. A. Hester, of 212 East 14th street says: "To walk for any distance or to over-exert myself in any way, intensified the aching in my back from which I was a long time a continual sufferer, and if I caught cold it seemed to settle in the same region and made me almost miserable. When rising in the morning I felt stiff and sore, and often found it difficult to dress myself. Another symptom of my complaint was a weakness of the kidneys, which annoyed and distressed me beyond words. I doctored but found little if any relief until I tried Doan's Kidney Pills, which had been strongly recommended to me, and which I procured at Thomas & Trahern's drug store. They did me a vast amount of good. The pain in my back ceased, the secretions were regulated and my health was improved generally. The pills perform what they promise to every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

Mary Sullivan, aged 14 years, who says she came here two weeks ago from Owen county with Wm. Searey to wed, was found in a pitiful plight and on the road to ruin. She says the man deserted her after a week and without marrying her.—Louisville Times.

**Heartily Recommended For Rheumatism.**

O. G. Higbee, Danville, Ill., writes Dec. 2 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can heartily recommend it to all suffering from like affliction." 25c, 50c, \$1.00 Sold by R. C. Hardwick.

Leonard Howard, aged five years, son of a wealthy Martin county farmer, was accidentally shot and killed by his thirteen-year-old brother.

It almost always comes on in the night. Give five drops of small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment externally to the throat. 25c, 50c, \$1.00. Sold by R. C. Hardwick.

George F. Kroehl, president of the First National Bank of Asbury Park, New Jersey, was acquitted of a charge of making false entries in his bank's books.

**The Blind May See.**

Dr. D. Garfield's Eye Remedy cured hundreds in Tennessee who were nearly blind with sore eyes, granulated eyelids, watering, itching, burning, inflamed eyes, and wild hair. Many had sores or pterygia on their eyes could not see their way; were given up by doctors as incurable after paying out hundreds of dollars. ## WIDOWS' ATTRACTIVENESS.

One of the Sex Tells Why It Is That Men Prefer Their Company to That of Young Girls.

Statistics show that widows are far more attractive to men than are the young girls who have never taken matrimonial vows. All sorts of explanations are offered, but a woman who has closely observed the facts in many cases says that the explanation is most obvious and simple, reports the New York Tribune. A man is not long captivated by an inexperienced girl, and, however beautiful and charming she may be, the conversation never takes that intelligent and closely sympathetic turn that is natural to a man when he is talking to a woman who has seen more of life and knows men as they are.

The widow is more anxious to please than to be pleased, and a man can stand the most copious draughts of adulation; in fact, he can be intoxicated by the widow's subtle glances, and in such an intoxication he revels with a smile of content.

The widow enters to his whims. She is too wise to argue with him. She knows that arguments are the crypts of friendship and the overhanging doom of love. She understands that when a man leaves his place of business, he wishes to leave there all cares and perplexities. Consequently she does not try to force her opinions on him; but if he cares to talk of them she is capable of understanding the problems that make up the life of a man of business affairs.

The well-bred widow is always gracious. She may or may not care to marry again, but, having grown accustomed to a husband's comradeship, she enjoys the society of other men, and in that enjoyment lies one of the great secrets of her attractiveness to a lonely man. Her graciousness is charmingly apparent when greeting her friends.

The young girl fancies that indifference is a sign that enhances a man's fancy. The widow knows that a man's vanity is flattered by her gracious reception of him, and when either talking or listening she is animated and interested.

**CORPSE HELD NINE YEARS.**

Body of Supposed English Noble Perfectly Embalmed in Pennsylvania Morgue.

A man who is believed to have belonged to a noble English family died from exposure in Wayne, Pa., nine years ago and his body still lies unclaimed in the morgue of that town, reports the Philadelphia Record.

Mack was employed for several years by R. H. Johnson, a contractor. He was a man of education and culture, and, according to rumor, was the heir to a British title, which, for some mysterious reason, he could not or would not claim.

At that time the man died, J. S. Pearce, at that time an undertaker, but who has since retired, embalmed the body, and decided to hold it until it should be claimed. No one ever claimed it, and, as the embalming was unusually successful, a number of efforts have been made by museums to purchase the body, but Mr. Pearce says he will not surrender it except to some member of Mack's family.

The body has been viewed by thousands of people, many of them Englishmen who hoped to identify it. The skin retains its natural color as in life. The nose has become unnaturally sharp from having been pinched by people who doubted if the man was really dead. Over the head of the mummy a cuckoo clock is kept going to keep him from getting lonely some.

**Mystery of the Baby.**

Wash a baby clean and dress him up real pretty and he will resist all advances with the most superlative coyness, but let him eat molasses, glassbeads and fool around the coal hod for half an hour, and he will nestle his dear little curly head close up to your clean shirt bosom and be just the cunningest littleascal in all the world.—Durango (Col.) Democrat.

## THE ONLY CURE FOR Rupture

Is the scientific adjustment of a truss appliance by some one thoroughly skilled in the Automatic and Mechanical Requirements of each case.

**DR. MORTIMER H. BROWN.**

The Eminent Specialist and recognized authority in the Mechanical Treatment of Hernia and the adjustment of appliances for Rupture and Deformities can be consulted in person at the address below.

I guarantee to hold your rupture, perfectly, under all conditions, with ease and comfort and give you as long a trial as you may wish with my truss free of charge. If I cannot satisfy you I do not want one cent of your money. I have the only truss made to cure Rupture and I am the only Truss Expert having confidence enough in his ability to guarantee satisfaction before expecting pay.

**No Leg Straps, No Heavy Elastic Bands or Steel Springs with my Guaranteed Truss, No more Truss Torture or Danger from Strangulation if you accept my offer.**

From the thousands of testimonials and letters I have I submit the following and will forfeit \$1,000 if I cannot show the original letters to anyone interested.

**No Truss ever held this Rupture before, 20 inches in Circumference.**

DR. BROWN, Dear Sir:—"I wish to tell you of the good the truss you fitted to me has done. As you will probably remember, my case was one no truss had ever held before and as it was 20 inches in circumference it was a great annoyance and disfigurement to me. From the day you put the truss on me my rupture has never been out, and after wearing it one month I took it off for over an hour in taking a bath and none of the rupture came down. I would not take one thousand dollars for the relief your truss has given me and I am certain it will cure me."

**Ruptured for Twenty-two Years Cured in Three Months.**

"I had been ruptured on my left side for twenty-two years, during which time I had tried many so-called cures and trusses, with no benefit whatever. I was thoroughly disheartened, as I could not get truss to hold my rupture, and the best physicians told me there was no cure for me. In the spring of 1890 I commenced with Dr. M. H. Brown, and from the day he put his truss on, my rupture gave me no more trouble, I continued to wear the truss until the fall and then took it off and have not worn it since."

**Ruptured for Fifteen Years, a Prominent Distiller is Cured.**

"About fifteen years ago I was ruptured on the right side by being kicked in the groin, and five years later from some unknown cause, on the left side. I knew no cure until July, 1899, when I began with Dr. Brown. After wearing the truss a few months I discarded it and have had no trouble since."

Remember I give you a FREE TRIAL with my truss and unless you are fully satisfied you will not OWE ME A PENNY. Circulars free at Hotel or by mail Hopkinsville, Ky., Hotel Latham, July 18 to 21, 1904.

Basket ball as a recreative  
game is unique in its origin for  
two reasons. Firstly, it is our  
possession, sure, home American  
production; secondly, the name,  
date and place of its authorship  
are exactly known, says Golden  
Days. Of no other game in all the  
category can this be said; the  
birth of the bulk of them is buried  
in an obscurity which reaches be-  
hind the cuneiform-covered,  
baked clay tablets of Babylon, and  
the hieroglyphics of the remotest  
Egyptian records.

Basket ball, on the other hand,  
was born in the year 1901 at  
Springfield, Mass., and its author  
was James Naismith.

In that town is a training school  
connected with the Young Men's  
Christian Association, and, of  
course, professors, among them a  
professor of psychology who has  
paid to teach the young ideas how  
to think, effectively. In one of his  
lectures he called attention to cer-  
tain conditions upon which the  
brain could with advantage be ex-  
ercised, and challenged his class  
to supply the requirements to  
meet them. The conditions were  
the invention of a new game  
which could be played indoors, in  
a limited area, by a defined and  
unalterable number of contest-  
ants, and adaptable to both sexes.  
Upon this hypothesis one of his  
pupils, James Naismith, the same  
night evolved "basket ball." It  
was put into practice the next day,  
experimentally, and found to meet  
the conditions and limitations  
laid down by the professor admir-  
ably. But it had more than an  
academic value, as its rapid spread  
as one of the most appreciated  
pastimes attests.

# CAPTURING CROCODILES.

Exciting Experiences of a Hunter of  
the Saurians in African  
Swamps.

A hunter in Africa tells some  
stories about crocodiles. He says:  
"One afternoon I went out to hunt  
lizards (in kind of an antelope), which  
were plentiful in the swamps. I  
wounded one splendid bull and  
gave chase, accompanied by two  
boys. We followed it across one  
or two channels, and finally the  
boy who was leading caught it up  
in an arm of the stream about two  
feet deep. As he was holding on  
to the back a crocodile—attrac-  
ted, no doubt, by the blood which  
flowed from the wound—swam  
—shot up and seized the boy by  
the leg below the knee. He hung  
on to the other boy, who had come  
up, and I arrived to the accompani-  
ment of yells. Fortunately the  
crocodile was only a small one and  
we managed to get the boy from  
him. The lizards meantime made  
his escape, and I went back to camp  
for men to carry in the wounded  
native. His leg was badly lacer-  
ated, but with careful treatment  
he recovered soon."

Of another crocodile, which  
measured 17 feet in length and  
which this same hunter shot, he  
writes: "On cutting him open he  
was found to contain the remains  
of an Mpala ram (with horns in-  
tact), which he had probably  
caught while it was drinking. On  
one occasion I cut up a crocodile  
which contained no less than 49  
hankies of ivory and copper, show-  
ing that he had swallowed one or  
more natives, so I always get the  
boys to cut up any we shoot. They  
are loathsome reptiles, and I never  
consider a shot at them wasted.  
Many a native while drawing wa-  
ter after dark is caught by the  
arm and dragged into the river. A  
fine old hunting dog which  
had served me two years was  
caught by a crocodile right un-  
der my nose one day in a small  
stream, where he had gone to  
drink after running down a  
wounded puku."

This hunter also writes: "Very  
good sport is had by fishing for  
crocodiles in the following way:  
A piece of wood, about two inches  
thick and 12 inches long, is sharp-  
ened at both ends and attached by  
the middle to a stout line. To the  
other end of the line is fixed a float.  
A bit of meat is, or the entrails  
of a buck are, tied on the sharp-  
ened stick, and the whole thing  
thrown into the river and allowed  
to float down with the current.  
The crocodile swallows the bait  
and away goes the float along the  
surface. Then a rush out with a  
canoe and a pull on the line fixes  
the pointed piece of wood in his  
gullet. It is necessary to shoot or  
spear him as he struggles on the  
surface, as he is much too heavy  
and strong to land like a fish."

# OUR LIGHTNING CHANCES.

To Go by Some Expressions in Com-  
mon Use We Are Very  
Versatile.

Great is the human make-up  
and great are its chameleon-like  
qualities in the way of expressing  
feeling. Writers from time im-  
memorial have taught us what to  
expect from the different colors  
that fit across our countenances,  
and, of course, writers are never  
wrong, says the Philadelphia Tel-  
graph. Here are some of the  
lightning chromatic changes that  
we all have grown to recognize,  
and there are several counties yet  
to be heard from.

A man turns green with envy,  
yellow with hatred, purple with  
rage, scarlet with anger, white  
from fear, pink from excitement,  
saffron from sickness, black from  
torment, red from heat and blue  
from cold.

Sometimes, too, he is "cold as  
steel," "hot as blazes," "cool as a  
cucumber," "a warm proposition,"  
"smooth as brass," "soft as mush,"  
"hard as a board," "a rough cus-  
tomer" and a "slick article." Then  
again he is "good as wheat,"  
"sound as a rock," "strong as an  
ox," "weak as a cat," "slippery as  
an eel," "sly as a fox," "mean as a  
snake," "poor as a mouse," "hun-  
gry as a wolf" and "dry as a fish."

# TAKE WINE

"For thy stomach's sake" was doubt-  
less the prescription of apostolic times  
for "stomach trouble." Wine for eight-  
een hundred years past has been a  
favorite prescription for poor digestion  
among general practitioners. You need  
a little wine to warm up the stomach,  
or to stimulate the stomach, as the case  
may be, was the common form of the  
prescription. But nobody has yet said  
you need a little wine to cure stomach  
trouble. Wine won't do that. And  
yet that's the one need of the diseased  
stomach—not stimulation, but cure.  
Dr. Pierce's Golden Medical Discovery  
cures diseases of the stomach and  
other organs of digestion and nutrition,  
and thus restores lost flesh and lost  
strength through the assimilation of  
perfectly digested food.

"Nineteen years ago, I was taken sick with stomach trouble," writes Mr.  
James H. Mulligan, of 832 E. Washington St., Syracuse, N. Y. "Commenced  
to treat with different physicians and in that length of time fifteen different  
physicians have treated me, off and on, up to a year ago. Some of the physi-  
cians claimed I had liver complaint, others said Bright's disease, others  
said intestinal dyspepsia. I have had doctors tell me they could do no more  
for me. Have in the time mentioned tried any number of other medicines.  
I must acknowledge that I have not in all of this time received from any  
doctor or other medicines the benefit that I received from Dr. R. V. Pierce's  
Golden Medical Discovery. It has done wonders for me, and I cannot speak  
too highly in its praise."

The sole motive for substitution is to permit the dealer to make  
the little more profit paid by the sale of less meritorious medicines.  
He gains; you lose, therefore accept no substitute for "Golden  
Medical Discovery."

is sent FREE on receipt of stamps to pay expense of  
mailing ONLY. Send 21 one-cent stamps for the book

volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

### PARKER AND DAVIS.

The St. Louis convention has completed its work and the Democratic party is once more united and hopeful of victory. The platform was adopted without difference of opinion after the resolutions committee had agreed upon the terms of Baltimore. The money question is passed by as no longer an issue and the platform is a wise and patriotic deliverance, dealing with matters that vitally concern the people at the present time.

Judge Alton B. Parker, who heads the ticket, is in the prime of mature manhood, 54 years old, and a lifelong Democrat. He is a gold Democrat, but many gold Democrats, including Judge Parker himself, voted for a silver Democrat in 1896 and 1900 and silver Democrats can consistently and enthusiastically do as much with conditions reversed in 1904. Our committee for Vice President is from the only Southern State that is under Republican rule. Henry G. Davis was a Democratic leader twenty years ago and though 81 years old is still hale and vigorous. He is the richest man in his State and practically owns its mines and railroads. It ought to be an easy task for him to telegraph West Virginia, where the Republican party is said to be torn by factions.

There is no discord in the Democratic party. Bryan will of course support the ticket, like the patriotic leader that he is. Cleland and others who followed him out of the party in 1896, will come back and take a fresh start and we hope once more be loyal Democrats. The candidates are all right, the platform suits everybody and no Democrat can be found anywhere who is not for the ticket.

Gen. Kuropatkin is busy explaining how he will overrun India in the event England gets into the Russian war. At present the public is more interested in having the General explain how he is going to keep Japan from overrunning Manchuria.

### Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Halls Catarrh Cure. Send for circular, free.

The Russellville News last week issued an illustrated supplement in pamphlet form as an "O & N Special." It was handsomely gotten up on book paper and contained write-ups of Logan county's business interests. It was very creditable to the enterprising spirit of Editor Sam W. Linebaugh.

Hobson made some reputation at St. Louis by his speech to the convention, but he did not add to it by the sneering side remarks about Bryan attributed to him by the Associated Press.

Mayor Grainger has announced that he will appoint Jas. P. Edwards to succeed Lee Suter on the Louisville Board of Public Safety, a position that pays \$3,000 a year.

In spite of the coroner's verdict of accidental killing, the court held Wm. O. Vaughn over on a charge of murdering R. Lee Suter. His bond was fixed at \$5,000.

Judge Parker is a member of the Episcopal church. He attended services as usual Sunday and was one of the officers who passed around the hat.

The National Committee endorsed the candidacy of Tom Taggart, of Indiana, for chairman of the committee, but adjourned to consult Judge Parker's wishes in the matter.

The total number of admissions to the World's Fair was 4,093,226 to July 10.

Judge Wm. L. Dulaney, of Bowling Green, died Sunday, aged 66 years.

### SURVIVORS OF THE NORGE.

Two Boats Reach the Islands With 39 on Board

Glasgow, July 8.—Another boat with Norge survivors, eleven passengers, eight sailors and one child, has reached the Shetland Islands. This boat, which was in charge of the second mate of the Norge, was eight days on the open sea. The party rowed the entire distance to the islands. All on board the boat were very much exhausted and unable to stand when they landed. The Shetland Islands were sighted by the boat on Wednesday last.

Leigh, Scotland, July 9.—Nineteen more survivors of the wrecked Danish steamer Norge, picked up from a boat by a sailing ship, have been landed at Thorhaven, at Faeroe Island.

Louisville, and perhaps some of the other large cities, will try to have themselves exempted from the uniform book bill, as they claim the expense would be too great to be borne all at once.

While the adoption of this series of books may work a hardship for a short time, yet in the end it will result in a saving of thousands of dollars to the parents of the state.

## Buy Your Spring Suit Early!

You thus have a larger assortment to select from, and you get longer wear for the same outlay, with the added satisfaction of being among the first to appear in up-to-date apparel.

The four-button Sack Suit shown in the picture will appeal to good dressers who want to be just a little in advance of the "merchant tailor's" styles. It has the broad shoulder and chest effect which gives a full, substantial appearance to the wearer without that stuffed and padded look so common in other lines of ready-made clothing. Think of buying a suit like this of any spring fabrics

At So Low a Price as \$12.00!

This is an ideal suit for business men who know the value of "looking prosperous." It is the product of the art-tailors of Schloss Bros. & Co., whose clothing we handle. We have other lines for other men at other prices. Before you buy your Spring suit, drop in and let us talk it over.

N. Stadlemann has equipped his Ninth Street Meat Market with the most satisfactory and commodious screens ever seen in the region. Not only are doors and windows completely screened but screens extend in front of and above the counters. ### When Honeymoons End.

The late Mrs. John Ridgway, of Paris, was noted for her ready wit. At one of her receptions apropos of marriage Guy de Maupassant said:

"The honeymoon ends when the wife first asks the husband for money."

"No," Mrs. Ridgway retorted, "it ends when the husband ceases to ask the wife how much he can have the pleasure of giving her."

### WHILE CELEBRATING

W. O. Vaughn Fires Shot Which  
Wounds R. L. Suter Near  
Louisville

Louisville, Ky., July 3.—R. Les Suter, member of the Board of Public Safety, an attorney and for several years an important figure in Democratic politics, was shot and killed today by W. O. Vaughn, the son of a wealthy contractor. Vaughn, who admits that he fired the shot, says he was celebrating the Fourth of July. The tragedy occurred eight miles above Louisville, where Suter and a party of friends were camping and fishing. Suter was asleep on a cot and the bullet passed through his breast, severing an artery and produced a wound similar to that received by Wm. Goebel. Suter was brought to Louisville, but died to death a few hours at the City Hospital. Vaughn was driving along the river road, and according to the statements of three young men with him, was shooting from side to side, one of the bullets finding its way to the river bank where Suter's tent was pitched. Vaughn was arrested. Mr. Suter's father and mother live in Frankfort.

### Scared to Death.

Dr. Francis W. McNamara, of Chicago, says: "Millions of people are made wretched every year or perhaps have their lives shortened, by feeling that they have heart disease. They have a pain in that region, and their own diagnosis is sufficient to convince them of the malady. As a matter of fact, there is seldom any pain from heart disease. The trouble is indigestion only. The stomach, lying just under the heart, is distended with painful gases, and, crowding toward the heart, makes the pain seem to be in that organ." This opinion simply confirms the claim of Dr. W. B. Caldwell, who originated the formula of Syrup Pepsin, the guaranteed cure for indigestion and constipation. All druggists sell, but be sure to ask for Dr. Caldwell's Syrup Pepsin.

### YOUNG PEOPLE MARRY.

Miss Dawn Brunley and Sam Jones Marry Monday at Springfield.

Miss Dawn Brunley and Samuel Jones, two well known young people of Madisonville, eloped to Springfield Tenn., Monday morning where they were married. There was no objection to the marriage on the part of the families of either of the people but they chose this method for the romance there was in it and in order that they might surprise their friends.—Husler.

Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c. 50c. \$1.00 bottle. Sold by R. C. Hardwick.

### Murder Charged Again.

Louisville, Ky., July 4.—Dr. Sarah A. Murphy has been placed under arrest on the charge of murder. It is alleged that an abortion performed on Miss Maggie Woolley, of Heltonville, Ind., last Thursday caused the girl's death Saturday afternoon. About a year ago Dr. Murphy was arrested on the charge of committing an abortion on Stella Stork, of Huntingtonburg, Ind., from which the latter died.

### Indigestion

With its companions, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 60c bottle. Sold by R. C. Hardwick.

### The Delineator for August.

In addition to entertaining fiction for leisure hours, the August Delineator contains something for each of the practical needs of woman. In dress, the latest styles are depicted, with the aid of handsome colored plates and drawings in black and white, and the movements in fashion described. The kitchen, the table, the garden, the nursery, beside the lighter interests of woman, such as her reading, her clubs and other amusements, are treated from various standpoints. The literary features of the number are of the highest order. There are three stories that furnish the exact flavor that is looked for in summer reading, by Carroll Watson Rankin, Alice MacGowan and Cyrus Townsend Brady. Lillie Hamilton French, in the delightful "Joy of Living" series, writes on the manner of receiving, and Seumas MacManus and Elizabeth Ruggles contribute excellent verse. A timely article by Edward Emerson, Jr., on "The Attitude of the Japanese Women in the War," gives some very interesting information, and is illustrated with exclusive portraits of women who are prominent in the patriotic associations of Japan. Bodily Symmetry is the subject of the "Beauty" paper. The story of Elizabeth Kenton, wife of the noted Indian fighter, Gen. Simon Kenton, is told in the "Pioneer Women" series, and in the pictorial trip around the world the cities of the Mediterranean are done in thorough tourist style. In addition, there are plans for summer cabins on seashores and mountains, and a most entertaining collection of stories and pastimes for children.

### Popular Cartoons.

The art of newspaper illustration in its present form is a development of recent years. Newspaper cartoons have become a most popular feature of up-to-date metropolitan daily papers. The unique and catchy drawing now appearing daily on the front page of the Chicago Record Herald is one of the most special features of the great paper. The Record Herald has been fortunate in securing one of the best young artists in the country to carry out its popular policy of presenting each day a humorous and good-natured cartoon. Mr. Ralph Wilder is one of the coming men in newspaper work. His success has been as pronounced as it has been rapid. He shows all of the good-natured humor and the brighter side of everyday common life which has carried his work to a very popular success. His drawings are on all the various subjects of popular interest, political and otherwise. Current events are vividly portrayed in a way that pleases, yet often giving just criticism in a way that does not offend. Through his excellent work on eastern magazines Mr. Wilder first attracted universal attention. The Record Herald recognized in him at once a cartoonist of universal promise, and congratulates its readers on having been fortunate enough to engage him.

## BASE BALL.

Locals Win Three Straights  
From Henderson.

President of The League has Ordered Cairo Team Here For Series This Week.

According to an agreement made at a league meeting at Paducah in April, transferring the games scheduled here for the Fourth of July to Cairo, the president of the Kitty League has ordered the Egyptians here for three games, commencing tomorrow. The Hopkinsville team will, therefore, return here from Henderson to play the Cairo series.

### Saturday and Sunday's Games.

The locals went to Henderson Saturday and played the first of a series, winning by the score of 5 to 4. Hopkinsville won again Sunday, the score being 7 to 1. A double header was played Sunday, the locals being victorious in both contests. Only the first game counts in the percentage column, however. Morris pitched in the game for the Browns Saturday. Ferrell twirled for the locals in the first game Sunday, and Peltier in the second. The third regular game of the series was played yesterday but our terms closed before the result was received here. Alexander and Collins composed the battery for Hopkinsville in this game.

Clarksville defeated Paducah at Clarksville Saturday, the score being 11 to 2.

Cairo won from the Indians Sunday at Vincennes, the score being 7 to 2.

Sunday's game at Vincennes, between Cairo and Vincennes, was won by the latter. The score was 2 to 1.

There was no game at Clarksville Sunday between the Tennesseans and Paducah, but a double header was scheduled for yesterday.

### Friday's Game.

The game here between the locals and Paducah was one of the most interesting contests ever played in Hopkinsville, but was lost to the visitors after a hard-fought contest, in which eleven innings were played. Bomar pitched for the Browns, while McGill twirled for the visitors, and both men put up a fine game. Bomar struck out eleven men. The score was 5 to 3. The locals made one score in the fourth inning and two in the fifth. Paducah got a man across the plate in the fifth, one in the sixth and another in the seventh, tying the score. In the eighth, ninth and tenth neither side was able to score, but in the eleventh the visitors made two runs. Hopkinsville failed to profit by her last hold of the inning and he game was lost. Meander knocked a three-bagger in the fourth inning and Bomar gave a similar performance in the fifth.

Henderson lost to Cairo in a very close game at Henderson, the score being 5 to 4.

Vincennes defeated Clarksville at Vincennes. The score was 5 to 3.

### Thursday's Game.

Hopkinsville won the second game of the series from Paducah and lost the third. The score was 6 to 5. The locals won the game in the fourth inning, when four scores were made by them. The runs were the results of good, clean hits, and the visitors were unable to play even at any stage of the game, although Paducah scored one in the ninth.

At Henderson, Cairo lost to the Hens by a score of 10 to 3. The Egyptians got only two hits.

Vincennes had a walk over with Clarksville at Vincennes. The sand-diggers were allowed only

five hits, while the Indians made no hits. The score was 11 to 0 in favor of Vincennes.

### On the Fly.

Huepple, Cotham and Welsh were released by Hopkinsville Saturday, as the team did not need 14 men. Welsh has signed with Henderson, Cotham has returned to Little Rock and Huepple to Evansville.

Otto Mullen, lately with Greenville, Miss., Cotton States League, has signed with Henderson, and the only score the Henderson team made Sunday was on his home run. He has developed into a pitcher since he left the home team.

An exhibition game will be played this afternoon between the Browns and the local "Tradewater team," that has been playing Dawson and other nearby towns. The Tradewaters say they can beat the regulars. No doubt a big crowd will turn out to see them turn the trick.

### PUT ON PANTS

Have the Naked Islanders at St. Louis.

St. Louis, July 8.—Several of the Igorrotes who are on exhibition in the Philippine reservation donated "pants" to-day. Their new garment consists of a pair of bright red silk trunks almost skin tight. Only a few of the natives put on the new garb and they were roundly ridiculed by their companions who still retained the native costume. By the authorities in charge of the Igorrotes it was stated that the trunks were but an experiment and it was probable that the natives would be allowed to return to their original costume, as the new one serves no better for a covering and destroys the anthropological value of the exhibit.

**ON UNIQUE WAGON**

**Atlanta Man is Pushing Wheelbarrow to West's Fair.**

Pushing a wheelbarrow before him, J. A. Owens, of Atlanta, Ga., arrived in Hopkinsville Friday evening, and spending the night at Hotel Latham, resumed his journey to St. Louis the next morning. Mr. Owens is carrying out a bet he made in Charlotte, N. C., in December, 1902, when the Atlanta spirit was doubted by a North Carolinian. There are several conditions attached to the trip, but Mr. Owens proposes to fulfill each in turn and to arrive in St. Louis a winner.

The total amount of the bet is \$500. The failure of the city to erect a model of the new union passenger station makes it impossible for Mr. Owens to do more than to break even. The bet is divided into several parts. A certain sum is wagered that Mr. Owens would not roll a wheelbarrow from the car shed through the streets of Atlanta. An additional sum is bet that he will not average a certain number of miles an hour for the first two days of the trip, and \$250 is bet that he will not roll the wheelbarrow into the model of the new passenger station in St. Louis after having walked from Atlanta and pushed the wheelbarrow before him. Mr. Owens has lost this \$250, owing to the failure of the fair authorities to fulfill the conditions required by the city. Mr. Owens feels that he could contest this bet on technicality, but does not propose to do so.

Mr. Owens is accompanied by W. B. Duke, who will score it that the contestant makes the entire trip in the manner stipulated. The distance by dirt road and pike between the two cities is 142 miles and 370 miles had been covered when

Hopkinsville was reached. He will have to make an average of 20 miles per day, and when he arrived here he was four days ahead of time. He came from Clarksville here and intended to spend Sunday in Earlington. Owens's wheelbarrow is an iron frame, with a pneumatic tire for the wheel and weighs about thirty pounds. He carries fifteen pounds of baggage.

**REV. J. W. T. GIVENS**

Sketched by Rev. W. S. Ryland, of Russellville, in Baptist Argus.

Some years ago (it seems not many) I met a bright young man at the Daviess County Association. He was a good deal above the average, and I wondered that, having an eye to the ministry, and being eager for an education, he had not been sent by his brethren to college. We tried in one way or another to find how he might go or be sent, but seemingly to no avail, and I thought I should see no more of him for some time. But shortly after this, he appeared as one of an excursion party at the opening of Bethel College; a gala day it was. To my pleasant and somewhat bantering inquiry, "And what are you doing here?" he laughingly replied, "I am come to college." "But I thought you had no more than ten dollars," I said. "I haven't that now," was the answer. "It cost me two to get here." "And what will you do when that gives out?" I asked. "I'll can't do any better," said he. "I'll have to go back home." And he said and stood on until he got his degree, working his way through. He began in the boarding hall, cleaning lamps, serving table, and many other things, doing them so well and so cheerfully that nobody could think ill of him. After a while he attained the dignity of janitor, and later on began to preach. Nothing mean while discouraged him, nothing seemed to go against him. He was always the same, a bright-eyed, smiling, hopeful soul, steadfast, undaunted, unswerving, in the front rank as student withal,

and so less valued by teacher and comrade as friend or brother. His career in college forshadowed well that as preacher and pastor. Wherever he knows he is as much beloved as he is admired, and has held prominent pastorates, notably that in Owensboro, Ky., at Walnut street church, and that of Salem, Christian county. After a successful ministry in his native state I learn he is about to enter a faraway field. The prayers of many of the faithful will follow him and his gentle spouse, with their sweet children.

**Woodson on Top.**

St. Louis, July 8.—Liberal promises are being made by the Parker managers to the men who have aided them in their fight. If Parker should be elected Urey Woodson has the internal Revenue collectorship, now held by E. T. Francis, nailed down. Woodson is very solid with both Hill and Belmont.

The eldest son of Mr. Ed Fritz had the misfortune to lose one of his fingers one day this week. He was playing with his little cousin who had a hatchet, and somehow he struck the little fellow and cut his finger off.—Fairview Review.

**(Roll Call.)**

"Meat Trust!" loudly did Cortelyou cry.  
The campaign roll in hand.  
"Here!" was the ready and instant reply.  
And the smell of the fat beginning to fry  
Pervaded the whole of the land.  
"Steel Trust!" and loudly the answer came  
As quick as the lightning's glare;  
"Here!" and the caller marked the name  
With the little marks which mean  
"the same."  
And some more of the fat was there.

"Coal Trust!" Orderly Cortelyou cried,  
His voice in the key of "C."  
"Here!" came the answer with great pride,  
And more of the fat was quickly fried  
For the use of the g. o. p.

"Railroad Trust!" then cried Cortelyou,  
And swiftly the answer ran:  
"Here!" with a cadence ringing true,  
As the managers with abandon threw  
Their fat in the fryingpan.

"Bank Trust?" loudly the name was called,  
And the answer came straightway.  
"Here!" and the bank trust gladly hailed  
The gods they'd wrenched from the land estranged,  
And great was the fat that day.

Swiftly the roll was called, and all at once their names replied,  
Not one there failed to heed the call  
That echoed along the street named Wall,  
And oodles of fat was fried.  
—Commoner.

# A Sale Of Women's Tailor-Made Suits Without a Parallel Inaugurated SATURDAY Morning and Continues This Week.

Sounds sensational, doesn't it? But the statement is justified by the facts, for we are going to sell \$10 and \$12.50 suits for \$5; \$15 and \$16.50 suits for \$7.50; \$18.50 to \$22 suits for \$10; and \$25 to \$35 suits for \$15.

Of course these are extreme values—other suits will not be sold quite as cheap. There is not a tailor made suit in the stock, however, that has not been reduced more or less. Every one of the garments in this sale is from our regular stock and the first prices are what we originally marked the garments to sell for.

**There is Reason for all Things,** and the simple reason for taking such a tremendous loss on our stock of Women's Tailor-Made Suits is because we have too many of them—close to 100 Spring and Summer Wool Suits on hand—that's by far too many and we believe by making such radical price cuts we will clear them out in short order. This much we are positive of, if the women of Hopkinsville realize how cheap we are offering superior made and stylish suits, not one would remain in stock after a day's selling.

If we told you the actual loss we are taking in these suits the figures would undoubtedly amaze you, but we look on the other side of it, and figure how much we will get out of the suits plus the value of the advertisement—besides our method of doing business permits of carrying no stock over from one season to another.

## Frankel's BUSY STORE

**Facts About This Sale:** There are over 98 suits in this sale. More than 20 different styles. The mass of 14 or the stout woman requiring 40 bust measure can choose from the great variety of styles. In a great many instances the tailor got more for making the suit than we ask for it.

We include in this offering every woman and Misses Suit that we have in the house. If you were in the store yesterday or a week ago and priced a suit come down this week and you will be surprised for how little it can be bought. Don't fail to come.

The styles are blouse effects, Etons, straight coat suits, military suits, corset-fitting suits, long coat suits, cape suits and tailored suits in dress and walking lengths. The materials English Cheviots, Broadcloths, Serges, Mohairs, Etonnes, Covert Cloth, French Velvets, Venetians, Fancy Mixtures, Men's Suitings, and Homespuces—all colors among them; the majority are black, blue and brown; also the newer shades of gray in various fancy mixtures in light and dark shades. Linings and Trimmings—Coats are variously trimmed with self plaits, piping, silk straps, fancy ornaments, self-traps, fancy buttons and some with capes; others plain tailored, sleeves in the newest pouch style, skirts all this season's pleated and kilt effects, trimmed to match the jacket.
